

Target ID	Area	Description
T-35	A	Possible structure or tank
T-11	B	Possible buried structural feature (10' X 15') near entrance to I Foster Avenue
T-31	B	Possible UST (8' X 11') near Police Station
T-16	D	Possible large buried structure (17' X 50') with possible buried metallic lid (1-17) in Tank Farm A
T-21, 22, 24	E	Possible buried structures or foundation remnants at former Lacquer Plant along U.S. Avenue
T-48	G	Possible concrete or brick tank (10' X 20') located in 2 Foster Avenue parking lot
T-54	G	Possible UST (8' X 10') located south of Silver Lake at 2 Foster Avenue
T-56	G	Possible buried concrete pad (25 X 45') adjacent to former U.S. gasoline station
T-57, 58	G	Possible foundation or former roadbed (30' X 100') adjacent to Tank Farm A.
T-59, 60	---	Possible former production wells

OVERALL SITE MAP

The accessible exterior sections of the specified search area were investigated by Geo-Grat, Inc. using non-invasive geophysical subsurface detection techniques in an attempt to locate and map subsurface utilities, underground anomalies and targets.

Services and resulting interpretations provided by Geo-Grat, Inc. shall be performed with our best professional efforts. The depth of the GPR, EM, RF and/or magnetic signal penetration is dependent upon the electrical properties of the material probed. Thus, the resulting interpretations are opinions based on inference from acquired GPR, EM, RF, magnetic and/or other data. Geo-Grat, Inc. does not guarantee the desired signal penetration depth, accuracy or correctness of interpretations. Geo-Grat, Inc. will not be assisted by any services or interpretations performed by Geo-Grat, Inc. or others.
